ROSES OF QUALITY

The "Queen of Flowers"

—gives best results when planted in a sunny location and in a fairly heavy sediment soil. Be sure that the plants are set deep enough, at least one or two inches deeper, than where the bud has been inserted. Prune rather severe during the winter months, December to February, except the spring blooming climbing Roses like Banksias, Cherokees and Ramblers. Prune these Roses right after the blooming season is over, never in the fall.

Budded Roses are more vigorous and give better results than stock grown on its own roots, with the exception of a few climbing and strong growing varieties.

PLANTING SEASON

January to March, also in the late fall, if stock is available.

Richard Lohrmann

BUSH-ROSES

Prices for Strong 2-Year-old Field Grown No. 1
Grade, Bush and Climbing Roses

50 CENTS EACH; \$4.50 PER 10

Except Where Otherwise Noted.

Our Selection, for Quantities over 25 and More—
40 CENTS EACH.

ANGELS MATEU—After three years' test we can truthfully say this is one of the best roses grown today. Strong, upright growth, dark green glossy foliage and a distinctive new color in roses—a deep old rose, flushed with orange. A fine cut flower with the fragrance of ripe blackberries. A prolific bloomer and excellent in all sections. Plant Pat. No. 174. \$1 EACH.

AUTUMN — Deep burnt orange, streaked and blended with red. A gorgeous rose. Strong and vigorous, with glossy foliage.

BETTY UPRICHARD — A beautiful, fragrant, two-toned rose. Salmon pink petals with reverse side of a lighter shade with slight coppery sheen. Vigorous and fragrant.

BRAZIER—The fiery glow of live embers suggested the name of this rose. Pointed buds of burnt orange open to a double, fragrant flower of dazzling brilliance, the bright scarlet inside of the petals given a fiery glow by the orange color on the reverse side. Blooms freely but colors up best in the cooler sections. \$1 EACH.

CONDESSA DE SASTAGO—This Spanish novelty is the first double rose to have the vivid colors of the brilliant species rose Austrian copper. The bud is like a ball of gold with red stripes. Fully open it is fiery copper and rich gold. 75c EACH.

CHRISTOPHER STONE—From all sections come glowing reports of this outstanding new red rose. A long, pointed bud opening to a large double flower of vivid scarlet. Free blooming and fragrant. Upright in growth with bronzy green foliage that so far is almost free from mildew. \$1 EACH.

CONQUEROR — A rich orange yellow bud, gradually revealing, as it opens, a most brilliant fiery flame color shading to base of petals. A beautiful rose.

- COLUMBIA**—A very fragrant, clear rose pink.
- CUBA**—A dazzling shade of brilliant orange scarlet. Semi-double. A most showy garden rose.
- DUCHESS OF ATHOL**—One of the best garden roses. Clean, glossy foliage and a large fragrant flower of golden orange-bronze.
- DAME EDITH HELEN** — A large very double and very fragrant glowing pink rose on long, strong stems. A great favorite.
- E. G. HILL**—One of the best reds. A very large, deep red rose. Very double and most fragrant. fine cut flower.
- ETOILE DE HOLLANDE** — A very satisfactory dark, velvety red rose that does not blue. Very fragrant and an excellent cut flower. Vigorous and free blooming after the first year.
- GEN. McARTHUR**—Still a great favorite. Bright scarlet, full flowers and sweetly scented. Fine for Bay District.
- GOLDEN RAPTURE** — A fine new yellow rose with perfect form in bud and flower. A pure canary yellow. Fragrant, vigorous and healthy.
- GOLDEN GLEAM**—Insofar as not being so subject to die-back, this rose is even better than Golden Emblem. Very similar flower but richer color more crimson on the buds, brighter green foliage and more symmetrical growth.
- GOLDEN OPHELIA** — Beautiful shaped bud, strong stems. Golden buff shading, lighter at edges of petals.
- GRUSS AN COBURG**—A very attractive rose of delicate apricot yellow shaded with coppery pink, deeper colors in the center. Vigorous, upright grower and very fragrant.
- HADLEY**—An old favorite of rich dark red, full blooms and rich fragrance.
- HOOSIER BEAUTY**—Acknowledged to be one of the best and most profuse blooming velvety red roses. Fine cut flower, delicious fragrance and does not turn purple.
- HEINRICH GAEDE**—This is a very desirable rose. The color is rosy copper, also described as crimson on orange background or copper orange. The buds are very large and are usually borne singly on long, strong stems. 75c each.

J. OTTO THILOW: No better pink rose for most all locations. About the most perfectly formed buds of any rose, opening to a full, long-lasting flower of glowing rose pink. Strong stems and firm, leathery foliage.

LADY FORTEVIOT: A fine garden rose for all locations. A beautiful golden yellow and apricot. Pointed bud and double flower with pleasing fruity fragrance. Vigorous grower, continuous bloomer, with glossy bronze-green foliage.

MME. CECIL BRUNNER: The ever-popular baby rose. Beautifully formed in bud and flower. Light pink shaded salmon at base.

McGREDY'S IVORY: A fine white rose. Long pointed buds opening to a perfectly formed flower with a delicate creamy center.

MISS ROWENA THOM: A very large double flower of shining rose pink shaded gold toward base. A vigorous grower and profuse bloomer. Fine for cooler climates.

MME. COCHET-COCHET: Long, pointed buds of strong, coppery pink flushed with deep orange and opening to a large flower of same coloring. No rose is more striking or more admired in the Oakland Rose Garden. Plant Pat. No. 129. \$1.00 each.

MRS. CHAS. RUSSELL: Vigorous and free blooming. Well formed bud and flowers of deep carmine. Long-lasting cut flower.

MRS. HERBERT STEVENS: One of the best pure white roses for all sections.

MRS. SAM McGREDY: One of the best garden roses. Long pointed opening to a large double fragrant flower of copper-orange, flushed with red on outside of petals. Vigorous grower, glossy foliage, lasting flowers and a prolific bloomer.

OPHELIA: One of the most fragrant roses. Perfectly shaped bud and flower of delicate pink, salmon and apricot. Inclined to be a creamy white during summer months.

PADRE: A very showy rose of rich copper-scarlet, shaded yellow at base. Semi-double flowers, long straight stems on a vigorous, tall bush. Cut while the buds are tight.

PRES. HOOVER: More popular each year. A sensational garden rose. Long buds of orange and scarlet opening to a large flower of orange and pink. Longest stems—three to four feet—of any rose grown. Vigorous, prolific and a fine cut flower.

ROSE MARIE: A well formed free blooming bright pink rose. Long buds, sweetly fragrant, fine for cutting.

SENORA GARI: One of the very best new roses. Long, pointed buds of deep burnt orange opening to a large, double rose of same color, changing to a buff apricot. A strong, healthy free blooming rose. 75c each.

SHOT SILK: A beautiful combination of salmon-rose, orange yellow and pink. Dark green, healthy foliage, profuse in blooms and fragrant.

SUSAN LOUISE: A lovely new pink rose that so far has proved satisfactory in all sections. While a seedling from Belle of Portugal, it is a bush rose and a prolific, continuous bloomer. A very long, very slender bud, of deeper pink than its parents. A very strong, vigorous bush and almost thornless.

TALISMAN: The most popular garden rose. The color in bud and flower is an ever-varying mixture of red, golden yellow and orange-copper. Strong grower, profuse bloomer and a splendid cut flower of pleasing fragrance. Should be in every garden.

TEXAS CENTENNIAL: This very popular carmine-red rose is a sport of President Hoover. Has all the good qualities of Hoover with even better foliage. Large, full buds and blossoms and fine in all sections. Plant Pat. No. 112. 75c each.

SINGLE ROSES

AUSTRIAN COPPER: A popular rose for many years. A profusion of small, single, brilliant copper blooms. Short blooming season. Very little pruning.

DAINTY BESS: The loveliest single rose. Crinkled petals of apple-blossom pink with contrasting stamens of dark mahogany. Vigorous, free flowering and fragrant.

IRISH CHARM: An exquisite form in bud and flower. An apricot tint in the bud, opening to a deep blush pink.

IRISH FIREFLAME: Long deep bronze buds, opening to a large rose of orange pink and old gold.

VESUVIUS: A single rose of dark velvety red, generally in clusters. Vigorous, free blooming.

CLIMBING ROSES

BELLE OF PORTUGAL: A most rampant grower, so give it plenty of room. Great, long salmon pink buds opening to an enormous flower of little lighter shade.

CLIMBING DAME EDITH HELEN: Flowers same as the popular bush variety. A vigorous climber and profuse bloomer.

CLIMBING DAINTY BESS: Color identical with the bush form; one of the loveliest climbing roses; introduced in recent years; a continuous bloomer from April to November 65c each.

CLIMBING ETOILE DE HOLLANDE: One of the best red climbers. Flowers and foliage same as the bush.

CLIMBING GENERAL MacARTHUR (H. T.): Bright scarlet-red, large and full, fragrant. A vigorous and free flowering climber.

CLIMBING GOLDEN EMBLEM: A rampant climber with enormous, heavy canes producing quantities of double golden yellow flowers.

CLIMBING HADLEY (H. T.): A vigorous climber with deep crimson, fragrant blossoms which are produced all through the summer.

CLIMBING HOOSIER BEAUTY (H. T.): Of strong vigorous habit, bearing beautiful long buds of an intense rich, dazzling crimson-scarlet.

CLIMBING MRS. E. P. THOM: A deep canary yellow flower of medium size. Healthy, glossy green foliage. One of the best yellow climbers.

CLIMBING MRS. HERBERT STEVENS: This beautiful white tea rose now comes as a climber. The best white rose for all sections.

CLIMBING CECILE BRUNNER (P.): A very rampant grower. The small flowers are salmon-pink shading deeper toward the center and come in clusters; free bloomer.

CLIMBING PRES. HOOVER—A strong, prolific climber, bud and blossom same as the bush variety.

CLIMBING TALISMAN (H. T.)—Flowers are the same wonderful color and lovely form as the bush variety; a very free bloomer.

LA MARQUE—A very sweet-scented double white blossom.

MARECHAL NIEL—An old-time lemon yellow tea rose. Highly perfumed, globular blossoms, still quite popular.

MME. GREGOIRE STAECHELIN (Spanish Beauty)—A beautiful rose from Spain with long crimson buds that open to large semi-double flowers of delicate pink with wavy petals stained on the outside with crimson. A vigorous grower which produces a mass of bloom in May and June.

THE FOLLOWING VARIETIES BLOOM ONLY IN THE SPRING

AMERICAN PILLAR—A single flower, light red with a white center. In clusters.

BANKSIA YELLOW—A thornless climber, with glossy evergreen foliage. The flowers are small but bloom in great profusion in spring and early summer.

BANKSIA WHITE—Small double white flowers, the same habit as the yellow variety.

BEAUTY OF GLAZENWOOD—A bronzy yellow shaded orange and rose. Like an enormous bouquet during its spring blooming season.

CHEROKEE—Double white, one of the best evergreen hedge-roses.

CHEROKEE—Single white, *Rosa laevigata*, the true Cherokee Rose of the South; rather thorny but very fragrant; pot grown plants only. 35c each.

IMPROVED PAUL'S SCARLET — All the good qualities of Paul's Scarlet, but if properly fertilized and watered, will bloom continuously through summer and fall but not as freely as in the spring.

MERMAID—One of the most popular climbers. Large single flowers, of pale sulphur, shading deeper at base, with prominent amber-gold stamens. Must be seen to be appreciated. Rich, shining green foliage and a continuous bloomer. 75c Each.

RAMONA—The single red Cherokee Rose.

SILVER MOON—Single, saucer-shaped blooms of pure white with yellow stamens. Very fine, glossy foliage.

TAUSENDSCHOEN — Large clusters, blooms shaded soft pink and white.
